

# Glastender<sup>®</sup>

COFFEE DISPENSING COOLER

# Features

Space-maximizing 20" cooler pre-configured for dispensing coffee on draft. One or two faucet tower options for serving cold brew still, on nitro, or both.

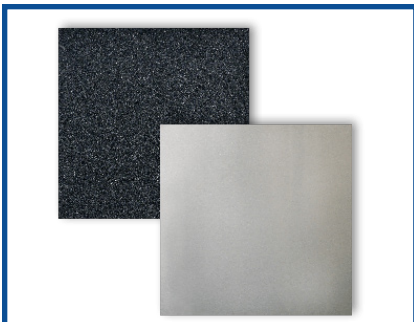

## Sustaining Decadence

Stainless steel faucets and shanks are included with the C1SB20-CD to preserve the intended flavors and nuances of coffee.

## Smooth & Refreshing

This cooler is pre-configured with a 1" finished top, low-pressure wall- or tank-mount gas regulator, gas manifold, gas tubing, and beverage tubing. The ordering process is a little quicker and smoother when only fun finishes are left to be determined.

## Select Finishes & Tower Style

Black Vinyl-Clad or Stainless Steel

Signature, Pull-Tab, or Tube Handles
