

Glastender®

HIGH PROFILE COOLERS

Features

Elevate best-sellers and seasonal beverages into the customer's line of sight, and effectively double back bar capacity with high-profile refrigeration models.

One-Zone Models

Listed to NSF Standard 7 for open food storage, these models suit BOH and QSR use, with full- or half-height door options.

Two-Zone Models

With two half-height doors and an insulated wall, these models offer independently controlled sections - perfect for wine or combo storage.

Attractive Exterior Finishes

Select from solid or glass doors, available in stainless steel, black vinyl-clad, laminate, or wood panel-ready.

Double Capacity

High-profile models double capacity in the same footprint as a 24" unit or match 60" cooler capacity in half the floor space.

Optional Wine Shelves

Select full-extension pull-out wine shelves for horizontal bottle storage.

We offer 100+ cooler models - scan for details.
